# Delivering solutions for evolving energy markets.

## Project Approach & Delivery

Our client-focused delivery approach offers a tailored plan to meet our clients' expectations throughout every phase of the project.

To produce our "client-centered solutions", we use our own comprehensively designed project planning model to carefully assess project challenges from the routine to the hazardous.

Our process is to develop a clear and concise understanding of the client's goals and objectives, apply our considerable expertise and resources to develop a sustainable project model and allocate and align the human, technological, and capital resources required to achieve our client's objectives.

## Services

We provide Program Management, Engineering Services, Construction Management, Environmental Management, Survey & Mapping, and Remediation & Contracting. Depending on the project, we offer these services independently and/or packaged together.

Our project delivery process is built on communication, innovation, and operational excellence. Allowing us the ability to truly partner with our clients to achieve the best outcomes. For energy and utilities, our services encompass these essential areas.

### Our Energy & Utilities Services

- Brownfield Consulting
- Construction Engineering Inspections (CEI)
- Environmental Planning and Permitting
- Facility Commissioning & Operations and Maintenance
- Geotechnical Engineering
- Program Management
