*Engineering sustainable solutions for  
our clients and their communities*

Construction materials testing

Geotechnical/ Erosion/land consultation

Land use planning and surveying

Quality control/ assurance

Sewer collection system design

Stormwater management

Water collection distribution system design

# Blending science and technology to ensure the safe design and implementation of infrastructure projects

## Project Approach & Delivery

Our client-focused delivery approach offers a tailored plan to meet our clients' expectations throughout every phase of the project.

To produce our "client-centered solutions", we use our own comprehensively designed project planning model to carefully assess project challenges from the routine to the hazardous.

Our process is to develop a clear and concise understanding of the client's goals and objectives, apply our considerable expertise and resources to develop a sustainable project model and allocate and align the human, technological, and capital resources required to achieve our client's objectives.

## Services

We provide Program Management, Engineering Services, Construction Management, Environmental Management, Survey & Mapping, and Remediation & Contracting. Depending on the project, we offer these services independently and/or packaged together.

Our project delivery process is built on communication, innovation, and operational excellence. Allowing us the ability to truly partner with our clients to achieve the best outcomes. For engineering services, our offerings encompass these essential areas.

### Our Engineering Services

- Construction material testing
- Geotechnical engineering NPDES and Erosion Control Consultation
- Land development consultation
- Land use planning and surveying
- Quality control/Quality assurance
- Sewer collection system design
- Stormwater consultation
- Water collection and distribution system design

## Projects

We approach every project by engaging with multiple key stakeholders and community partners to ensure timely project completion.

### College Football Hall of Fame

- Geotechnical and Environmental Services

### Hartsfield-Jackson Atlanta International Airport (ATL) AirSide Architectural & Engineering Design Services

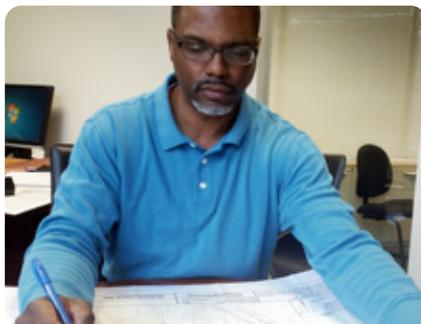

- Airside Erosion Repair, Grassing and Drainage Improvements RAMP 19
- Pavement Replacement 9L End Around Taxiway

### Mobile Area Water & Sewer Services (MAWSS)

- On-Call Engineering Design & Construction Management Services

### Punta Gorda Airport

- General Aviation Terminal
- Pavement Design

Atlanta | Mobile | Orlando
