Since 1995, we have been helping clients protect their interests by providing client-centered solutions.

The right project delivery model can make all the difference

Corporate Environmental Risk Management, LLC (CERM) is an environmental, engineering, and program management firm, established in 1995 and headquartered in Atlanta, GA. With our award-winning staff of engineers, scientists, surveyors, planners, and technicians, we tackle even the most challenging and large-scale jobs.

PROJECT MANAGEMENT MODEL

To produce our “client-centered solutions,” we use our own comprehensive Project Management Model, designed to carefully assess project challenges - from the routine to the hazardous. We partner with stakeholders, test for the unknown, listen to key decision-makers, and forge strategic partnerships.

Understand client goals and objectives

Develop project model and scope of work to achieve those objectives

Assign resources to meet client objectives

Our decades of experience enable us to successfully partner with you for improved water resources and enhanced mobility options to maintain vibrant/prosperous communities.

OUR OPERATING PHILOSOPHY

- Develop a clear and concise understanding of the client's goals and objectives.
- Apply our considerable expertise and resources to develop a sustainable project model.
- Allocate and align the human, technological, and capital resources.

OUR FACTS

CERM provides customized solutions to clients throughout the Southeastern United States.

With branch offices in Mobile, AL, and Orlando and Tampa, FL, CERM is also an award-winning Disadvantaged Business Enterprise (DBE) that employs more than 120 dedicated technical services and project management professionals.

We offer a tailored service approach to solve engineering, environmental and construction challenges on time and within budget.

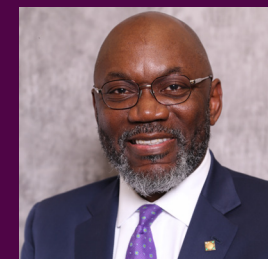

CERTIFIED

MBE & DBE and Veteran-Owned Business

Empowering Clients, Partners, and Communities

Albert G. Edwards
Founder/CEO

Since 1995, CERM has been a trusted partner to clients in Transportation, Water, Energy, Facilities, and Federal markets, helping them achieve their goals through impactful, results-driven collaborations with key stakeholders.

At CERM, we take a collaborative, client-first approach. We begin with a thorough assessment that delves into your industry, organization, and the needs of both your internal and external customers. This insight allows us to develop a tailored project management plan that provides a clear roadmap for your infrastructure or real estate asset—from planning and design to construction and commissioning. Senior Management ensures

that the project delivery team is fully equipped with the right people, expertise, and resources to meet your specific objectives.

For over 30 years, our core values of integrity, initiative, loyalty, and sustainability have driven our success and shaped our approach to reinvesting in communities. From educational initiatives and workforce development to advocating for small businesses, we remain committed to supporting the communities we serve. **We understand that behind each project in the built environment is a higher calling to serve the human environment and the people within it.**

We welcome the opportunity to work with your project team. Contact us today to explore how we can help you achieve your goals and bring your vision to life.
